FOR IMMEDIATE RELEASE

9HEALTH STATEMENT: GEORGE FLOYD

During this time of extreme challenge in our communities, our state, and our nation, our hearts go out to all experiencing pain, anger, grief, and outrage from the senseless killing of George Floyd - as well as the countless others who fell before him, perhaps lesser known but in no way less.

At 9Health, we believe Black lives matter, so we must not settle for solutions and systems that do not serve all humans.

Health, human connection, community, and compassion are at the heart of all humankind, and 9Health remains committed to elevate, honor, and value all people and communities. We are ever more resolved to listen closely to those very communities and help breakdown obstacles to equitable access to health.

We believe now is the time to rethink and refocus our collective efforts to find new solutions and systems that elevate the lives of our community - focusing on equal opportunity, respect, and dignity for all.

Black lives matter. Racism is not okay. We can and must do better.
