FALL HEALTH FAIRS WITH 9HEALTH :365 ARE BACK!

Denver, Colo. – September 8, 2021- 9Health:365, previously 9Health Fair, can help you improve your health, strengthen your immune system, and get on track to living your healthiest life, every day of the year. Whether you're hoping to monitor your overall health or discover your personal health risk factors, we have the screenings you need – at a price you can afford – to empower you to take health into your own hands. Find locations, times, and screenings for an upcoming 9Health Fair at:

<https://9health365.org/health-fairs/fair-result>

With the continuing COVID-19 pandemic, the fall 9Health:365 fairs will be following CDC safety requirements, requiring masks, and encouraging appointments.

Here is a snapshot of what you can receive at a health fair from 9Health:365 this fall. Do it for the health of it!

- A wide variety of affordable lab screenings to help show your risk for chronic disease (Blood Chemistry Screening just \$39)
 - Fasting is not required (optional) for blood screenings. To best prepare for a blood draw, drink plenty of water and continue to take prescription medications. Check with your health care provider for specific recommendations.
- Personalized results dashboard
- Free Flu Shots/Flu Vouchers*
- COVID-19 vaccinations*
- And more!

*Flu shots and COVID-19 vaccines only available at select locations – while supplies last.

Find the screenings available at a fall 9Health:365 fair close to you and register online:

www.9Health365.org

REMINDER: If you are an individual who is immune-compromised or a high-risk group for COVID-19, you may want to avoid gatherings of people like the health fair. You can get some of the same affordable screenings available at 9Health Fairs at certain Quest Diagnostic Centers. Purchase screenings here:

[About 9Health:365](#)

9Health Fair is now 9Health:365 providing preventive care every day of the year. 9Health365's core mission from the beginning: *To advance health awareness, providing people with the tools they need to take responsibility for their own health.* [9Health:365 Comprehensive](#) allows us to further this mission by supporting underserved and underinsured populations year-round where they work and live.
